

MediaMaster™ Video On Demand System

77 Inch Interactive Whiteboard

MM-1240

Specifications

- Height:** 53.4 in (136 cm)
- Width:** 68.6 in (174 cm)
- Depth:** 2.2 in (5.6 cm)
- Weight:** 52.9 lbs (24 kg)
- Power:** 100-240 VAC at 6 W

Description

Our interactive whiteboard's multi-touch support represents the next generation of the technology sweeping the education world. Multi-touch allows two students to work at once, or for more complicated gestures than allowed by older generations of interactive whiteboards.

The whiteboard works with video and computer sources, projected on the surface by any of our MM-1230 series projectors. We particularly recommend the MM-1239 short-throw projector for this application, as it can be mounted above the whiteboard, on the same wall. This avoids the problems of the projector's lamp shining in the eyes of the teacher and students while they work. Shadows on the screen are also less problematic with this configuration.

Features

- Multi-touch
- Use any object for pointing: a finger, a regular whiteboard marker, or the included electronic pen
- Surface allows use of regular whiteboard markers and will hold magnets placed on it
- Coated surface prevents projector hot spots
- Electronics-free surface works when damaged
- Digitizer component is field replaceable
- 24 customizable side buttons
- USB computer control

Available Accessories

- Computer/video projector, MM-1230 series; MM-1239 recommended
- Floor stand
- Extra electronic pens
