

MediaMaster™ Video On Demand System

2,600 Lumen Computer/Video Projector

MM-1231

Specifications

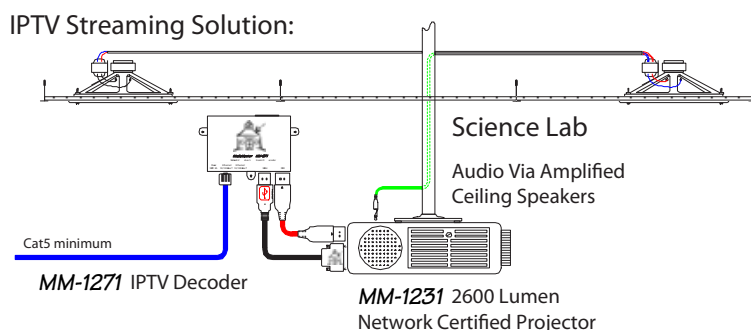

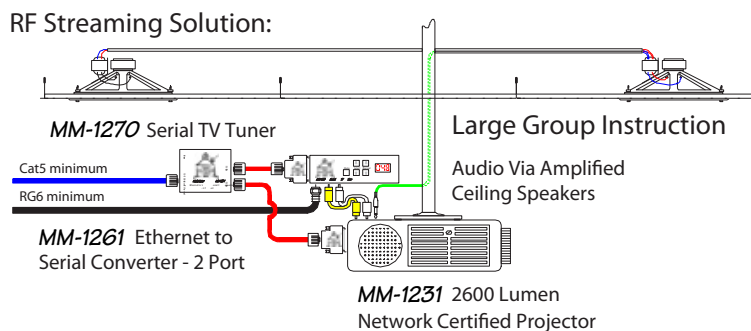

- Height:** 4.6 in (11.7 cm)
- Width:** 13.4 in (34 cm)
- Depth:** 10.6 in (26.9 cm)
- Weight:** 8.8 lbs (4 kg)
- Power:** 100-120 VAC at 320 W

Description

This projector can either be the primary display in a classroom or lab environment, or a secondary display along with one of the flat-panel displays we offer. This model's brightness makes it suitable for larger rooms, especially when coupled with a separate audio system. See the MM-1230 datasheet for more typical classroom configurations.

Typical Applications

One of the most common configurations we certify combines the projector with a TV tuner and separate audio system, plus a dual serial to Ethernet converter so control commands go over the network. Or, you can replace the tuner and converter with our IPTV decoder which does both jobs, sending video over the network as well:

Features

- 2,600 ANSI lumens
- 7 W built-in speaker
- 1024 × 768 resolution native, up to 1600 × 1200 interpolated
- 540 line video resolution
- 16.7 million colors
- 500 : 1 contrast ratio
- 35 dB acoustic noise (29 dB in whisper mode)
- ± 30° keystone corr.
- Analog RGB (VGA) inputs and outputs
- Component, S-video, and composite inputs
- Stereo RCA and 3.5 mm audio inputs; 3.5 mm audio output
- DB-9 RS-232 control port
- Optional 10/100BaseT Ethernet control port

Available Accessories

- 2' × 2' ceiling tile mount
- Universal pipe mount
- Serial tuner (MM-1270)
